Brand's Description

Glim is a brand focused on household products, its design line is oriented to offer practical and innovative solutions aiming to provide easy usage and helpfulness in every of our products.

Description

Glim Eco Bag is a comfortable and reusable bag, hand-made, practical for multiple uses. Because of its continuous handle design, it is able to carry up to 40 kg / 88 lb. without breaking or being deformed. Made of Nylon (100%), highly resistant. Features a practical pocket for easy storage, reducing its size and getting a comfortable handling. Excellent choice for shopping, trips or even the gym. Carry it on your shoulder or in your hand. Machine washable, making it an ecological and sustainable bag.

Environment first!

Using ecological bags is not only an option, it is our duty. Plastic bags are vastly collected as waste in our coasts, because of this, approximately 100000 turtles and other marine species get hurt or even perish due to the plastic waste in our oceans. In the U.S.A only, less than 1% of plastic is recycled. Not to mention the Great Pacific Garbage Patch.

We must join the great group of people that are now helping reduce plastic waste, including plastic bags. The Reusable Bag will be our contribution so that we will deliver better results for our future.
